OECD Trade With Sub-Saharan Africa

Preface

This publication is the fourth in a series of reference aids that will provide the most recent detailed commodity statistics of OECD [1] trade with different regions of the world. In this Reference Aid, data are provided on total OECD trade with Sub-Saharan Africa, trade of the five largest OECD countries with the region, and US trade with selected individual Sub-Saharan African countries. We plan to update the reference aids annually because of the interest in the LDC debt problem and interregional trade patterns.

[1] For tabulation purposes, the Organization for Economic Cooperative Development as here defined excludes Iceland, New Zealand, Portugal, and Turkey.
